HARDY ENGLISH CHRYSANTHEMUMS

Perhaps by this time most of you have tried these Hardy Early English Chrysanthemums and know how good they are. We are offering the following varieties at a more reasonable price than ever before. Chrysanthemum shipping will begin April 1st. Order early as stock on some of the varieties is scarce.

35c each or \$3.50 per dozen, All Different, Customer's Choice

ADORATION. Large spreading flower of pink on cream ground. A very fine variety that will grow very large when disbudded. Sept.

ALABASTER. A very early white of large size and good substance. Slightly incurved and will grow 5 inches across when disbudded. Aug., Sept.

BELLE MAUVE

CHARMWOOD

ALEXANDER MASON. Rich buttercup yellow, large perfectly incurved blooms of fine form and on good stems. Will grow very large when disbudded. Sept.

ANTELOPE. Salmon amber with a distinct glow of amber on the inside of the petals. Nice size, easy grower and nice stiff stems. Sept.

BELLE MAUVE. A lovely stiff stemmed silvery pink. Lots of flowers without disbudding. Nice for cutting. Sept.

BETTY FERGUSON. Large solid incurving terra cotta blooms. Stiff stems and nice bushy habit. Early Sept.

BRIDESMAID. Delicate blush pink suffused salmon. Large reflexing flowers that are lovely. Sept.

BRONZE EARLY BUTTERCUP. Rich deep bronze with golden reverse. A fine incurved variety. Best disbudded. A very popular variety. Aug., Sept.

BRONZE McLEOD. A fine large incurved bronze sport of George McLeod. Very lovely disbudded. Sept., Oct.

BRONZE PRECOSE. This one really blooms in the summer so be sure to plant it if you have short growing seasons. Pretty bright bronze blooms that are fine for cutting. July on.

CALUMET. A very large incurved yellow with a slight hint of bronze. Truly a lovely chrysanthemum. Sept., Oct.

CARNIVAL. A very bright scarlet red. Probably the very brightest colored variety. One that is much admired. Sept.

CERISE. A lovely spray variety in rosy cerise with quilled petals. A variety that is lovely for table decorations. Sept.

CHARMWOOD. A bright rosy mauve or light purple which makes a lovely cut flower. Nice size blooms that you don't disbud. Sept.

CHINA GOLD. A bright golden bronze with quilled petals. Blooms about the last of the English varieties but is very frost resistant.

COPELAND COPPER. Copper bronze. A variety that is good in sprays without disbudding. Especially good for short season localities. Nice stems and good rich color. Aug., Sept.

COPPELIA. A startling shade of Indian red that does not fade. Fine long stiff stems. Need not be disbudded as lovely in sprays. One of our best sellers in both cut flowers and plants. Aug., Sept.

CORAL QUEEN. A very lovely large salmon coral. A beauty. Good in sprays, also disbudded. Sept.

CORONA. A nice broad petaled flower of unique shape. Color is bright orange amber. Sept.

CRIMSON BUTTERCUP. A very lovely variety identical with Bronze Buttercup, except the reverse of the petals are crimson. Aug., Sept.

SMITH'S GIANT EVERBLOOMING CARNATIONS

We have grown carnations for many years but have never had anything to equal these. They bloom all summer and the blooms are extra large even without disbudding. With disbudding they would equal green house varieties in size. Lovely full centered double flowers in bright attractive colors. This year we can offer them just in a mixture of colors. Next year we expect to have a number of named varieties to offer. These carnations are hardy.

PRICE 25c EACH; \$2.50 PER DOZEN

DELPHINIUM

Famous Vetterle and Reinelt Pacific Hybrids

Years ago we used to import our Delphinium seed from England and thought that we had the finest Delphinium in the world but later we found this strain of Pacific Hybrids grown right here on our own Pacific Coast to be superior to the English strains. This elegant strain of Delphinium is almost beyond description. Flower spikes 4 to 8 feet tall closely packed with individual flowers from 2 to 3 inches across, most of them are double with a very few semi-double and just a single now and then. They are simply breath-taking in loveliness.

We are offering the following named varieties in nice young plants at **35c each or 5 all different labelled for \$1.40.**

BLUE BIRD. Clear medium blue with white bee.

GALAHAD. Clear white flower spikes of enormous size.

GUINEVERE. Light pinkish lavender with white bee.

KING ARTHUR. Rich deep royal violet with white bee.

SUMMER SKIES. Clearest light blue with white bee.

We also have the **Pacific Hybrids in mixed shades.** They are all good but no guarantee as to color at **25c each or 5 for \$1.00.**

DIANTHUS (Little Joe)

A lovely little Dianthus for the rockery or border. Makes neat tufts of silvery blue foliage and bears deep crimson flowers over a five-month period. These are true plants raised from cuttings.

PRICE 35c EACH; \$2.50 PER DOZEN

GYPSOPHILAS (Bristols Fairy)

This extra large Babybreath is still comparatively new. The flowers are extra large and extra double. It blooms throughout the summer and makes a wonderful cut flower.

STRONG FIELD GROWN PLANTS, \$1.00 EACH

ROSY VEIL

A new double flowered rosy pink Babybreath. An established plant reaches a height of two feet and blooms all summer and fall. Lovely in the garden and fine for cutting.

STRONG FIELD GROWN PLANTS, \$1.00 EACH

MICHAELMAS DAISY (Hardy Aster)

New improved varieties. Very hardy. Hardy asters are very fine for late blooms to live up the perennial border, with their thousands of colorful blooms late in the season, they are a very valuable addition to any garden. Very easily grown; require very little care.

PRICE 50c EACH, STRONG DIVISIONS

BEARDED IRIS

PLEASE NOTE—Delivery of iris will be made in July. Experience has taught us that this is the best month to do this, although they can be moved safely any time of the year. By July the roots have attained their full growth and are matured, and when planted then they take hold with their new roots and by blooming time next spring they have made a nice clump and will give good blooms.

Our field is usually in bloom by May 20. You are invited to visit our field and make selections at that time. An unusually late or early season may vary blooming date. Please order early, as quantities of many varieties are limited. All roots are extra strong, large plants sure to please.

This year for the first time we are giving the originator, the year of introduction, the average height in inches as expressed: 42 in. E is early, M is midseason, and L is late.

ACE OF SPADES (Salbach 1941) 36 in. M. Truly well named. Almost as dark as the Ace of Spades. Falls rich blackish red-violet, standards slightly lighter. Flowers large and lighty ruffled. Fragrant. Each 50c

ACTION FRONT (Cook 1942) 36 in. E.M. Flowers very large with broad petals of deep coppery red with yellow beard. Vigorous grower, strong stalks. Each \$1.50

ALBA SUPERBA (J. Sass 1943) 38 in. M. Splendid white variety with domed standards and flaring falls. The substance is heavy and the falls are well branched. Each \$5.00
